

Remembering the Octahedron and the Geometric Tree

Sacred Geometry, Consciousness, and the Path of Awakening

August 31-September 2, 2012—near Munich, Germany

The Original and First Workshop in the Vehicles of Light Series
from Seed of Life Institute and the SOLi School

In English with German Translation

Included

- ◆ The process of creation and the 7 main consciousness frequencies of all life
 - ◆ The sacred geometry associated with each consciousness frequency
- ◆ Star wisdom teachings (Pleiades, Sirius, etc.) and their sacred geometry counterparts
- ◆ The beginning of the new 26,000 year cycle and the importance of the octahedron
 - ◆ The octahedron and how it was used in ancient mystery schools
 - ◆ A powerful energy attunement channeled for the whole group
 - ◆ How to use the octahedron to activate the light body
 - ◆ Meditation practice using the octahedron activation
 - ◆ The human ego and how it is expressed geometrically
- ◆ Working with the higher geometry activations to refine consciousness evolution
 - ◆ Using the octahedron in sacred sites
 - ◆ An octahedron healing method (3-day workshop only)
- ◆ The Higher Harmonic Meditation – a meditation to work with the geometry tree

Facilitated by

Ronald Holt, Director of Flower of Life Research

Lyssa Royal Holt, Education Director of FOL and World Renowned Trance Channel

Feedback

I feel these teachings are highly feminine, intuitive and simple, yet extremely powerful. I truly believe that the level of consciousness I can reach with the activation helps me enjoy my life and experience my work and challenges with a deeper understanding of who I really am. Highly recommended!!! — R.M., Mexico

Ron and Lyssa are every bit as inspirational as [others] say they are and I feel amazingly well, connected and grounded!!! — B.A., UK

I hardly know how to say what I'm feeling other than I feel like my life has changed. I was absolutely thunderstruck by the whole experience. (Still am). I've never in my life felt so inspired and grateful. It was like staring into the sun. I just can't seem to express my gratitude enough. — J.J., USA
